VOL. 6

Our focus for the past twenty years...

*Since the first day of business in 1996, the focus for Reliant Foodservice has been on helping our customers be more successful. Due to this commitment, Reliant has developed into one of the leaders in customized distribution for the foodservice industry. Personalized service, innovative and responsive approach has earned us the business and respect of some of the leading retailers in our market. With our continued growth, Reliant Foodservice has been recognized by Inc Magazine as one of the fastest growing private companies in the nation consecutively the past 5 years. *(Inc5000 2011-2016)*

With our commitment to exceptional service, Reliant expanded distribution into Arizona, Nevada and recently began operations into the central valley and northern California marketplace. These additions to our delivery routes have been due to the demand of satisfied customers desiring to partner with Reliant on a larger scale while maintaining professional and personal relationships.

Offering many of the nation's leading brands, Reliant Foodservice continues to expand and diversify its product lines to keep up with current market trends. Our warehouse facility accommodates the largest selection of products for frozen yogurt shops and ice cream retailers, specialty coffee shops and a full line of products geared for the natural and organic juice bar industry.

We look forward to being of service as your Distribution Partner.

SUPER FOOD.
SUPER FAST.

What's so modern about Modern Oats?

We start by selecting only the most nutrient & protein rich, **non-genetically modified**, gluten-free certified, whole rolled oats. The highest grade from smaller, family run operations throughout the upper Midwest of North America.

After the groats are steamed and sized, we then blend with the finest, juiciest, **antioxidant rich superfruits**, omega 3 rich nuts and seeds, and lightly sweetened with only **organic** evaporated cane juice to craft the most delicious, healthy, modern blends of oatmeal found today.

GENEROSITY.WATER

what makes us different?

WHY GENEROSITY

pH Scale

(Measures how acidic or basic a substance is)

Optimal Hydration

Research shows that alkalized mineral water can increase hydration levels by 17%-maximizing your performance, fitness, and daily health.

Your body works best at a pH of 7.4, but in a world of high stress and caramel lattes, it's easy to get off balance. Drinking alkalized water helps neutralize acids and restore health

Packed with essential minerals like calcium and bicarbonate, research shows that alkalized water can improve bone density and help prevent osteoporosis.
